

## Kaspersky for Android

[Online Help](#)[FAQ](#)[Common articles](#)[Forum](#)[Contact customer service](#)

## Hardware and software requirements

October 7, 2024 ID 61345

This Help is applicable to Kaspersky app for Android 11.113.X.XXXX and later.

A device must meet the following requirements to support Kaspersky app:

- Smartphone or tablet with a screen resolution of 320x480 pixels or higher
- 120 MB of free space in the device's main memory
- Operating system: Android 7.0-14.x

If a device running the Android operating system has modified firmware, there is an increased risk that the device will be hacked and your data will be stolen or corrupted.

- Intel Atom x86 or ARMv7 and higher platforms

The app must only be installed to the device's main memory.
